Dear Dr. Schlottfeldt:

This is with reference to Gerardo Azevedo Fernandes and Silvio de Magalhaes Carvalo and their interest in qualifying for scholarships for training in extension methods under the direction of our staff in Mexico. It would be appropriate for these two young agricultural scientists to communicate directly with Dr. Delbert T. Myren (Calle Londres, 40, Mexico 6, D. F., Mexico), who is in charge of our extension methods activities in Mexico. In communicating with him, they could ascertain what type of experience they could expect to receive in Mexico, what their responsibilities as scholars would be, if they were to qualify, and whether or not February of 1958 would be a mutually agreeable time for them to initiate their training period.

On the assumption that a satisfactory program can be worked out, we are forwarding to you today the necessary application forms and the medical examination forms which they will need to complete as documentation for their applications.

Very sincerely yours,

John J. McKelvey, Jr.
